

DIOLUX™

VIRTUALLY PAIN FREE HAIR REMOVAL

A NEW APPROACH TO MEDICAL TECHNOLOGY

HIGH POWERED DIODE LASER SYSTEM FOR HAIR REMOVAL

Emvera Diolux is a high powered 810nm diode laser for permanent hair reduction. Enhanced power provides less pain and effective results. Emvera Diolux also treats all skin types, because of the various pulse mode.

SHORTENED OPERATING TIME

Emvera Diolux has the ability to operate at up to 10Hz, meaning a full back can be treated in as little as seven minutes.

INCREASED SAFETY AND LOWER COSTS

Emvera Diolux utilizes a diode laser which is far more stable and uniform than other laser wavelengths used for hair removal (i.e. Alexandrite 755nm). This results in a system that costs much less to maintain and is safe and effective on all skin types.

LESS PAIN

Emvera Diolux has a powerful chilled tip cooling system to minimize pain and reduce the risk of burning.

VARIOUS APPLICATIONS

The Emvera Diolux software allows the operator to easily set up for a successful treatment in a matter of seconds. All the operator has to do is pick three simple choices and you are ready to treat. Easily navigate through the touch screen computer system to begin. Choose the skin type based on the Fitzpatrick Scale, the body area to be treated and the hair type. Once you enter these three simple commands you are ready to begin treatment. It's that easy, no more guessing. Emvera has made it simple.

ACCURACY

Emvera Diolux's Specified Optical Device (SOD) uniformly radiates laser wavelengths so treatments are incredibly effective. The SOD makes it possible to deliver concentrated high efficiency energy at the follicle, which decreases the loss and scattering of laser light.

DIOLUX™

VIRTUALLY PAIN FREE HAIR REMOVAL

SPECIFICATION

Laser Diode Type..... High power CW laser diode
 Laser Diode Power..... 810nm Max 600w
 Energy Output Up to 120J/cm2
 Spectrum 810nm
 Spot Size..... 12 x 11 mm
 Pulse Duration Up to 625ms
 Pulse Repetition Rate 1~10Hz/1Hz Step
 Cooling..... Water Cooling (-5°C~5°C)
 Optical Guide..... Sapphire Crystal
 Net Weight..... 95lbs
 Dimensions..... 15"-W x 15"-L x 33"-H

THE BEST PRICE | THE BEST TERMS

Our lasers are affordably priced, with financing plans tailored to your needs. Use our devices in your practice now, with manageable monthly payments. Along with our excellent pricing and financing options, we include generous trade-in and trade up opportunities.

ORDER YOUR LASER TODAY & SCHEDULE YOUR TRAINING DATE

Our experienced trainers are available to arrange a hands-on training session for you and your technician. Please contact us to begin your Emvera experience.

LASER RADIATION:
 AVOID EYE OR SKIN EXPOSURE TO DIRECT OR SCATTERED RADIATION. CLASS 4 LASER PRODUCT (IEC 60825-1 2007).
 "Wavelength is outside the range of 400nm-700nm
 INVISIBLE LASER RADIATION"

DIODE LASER
 OUTPUT POWER: 600w max
 WAVELENGTH: 808 nm
 PULSE DURATION: 629 msec max
